Connecting WAND with Android Smartphone (Wi-Fi Direct Setup - SAP Mode)

1. Navigate to the Hydrawise **SETUP** wizard on the Hydrawise app or Hydrawise.com [1] website.

2. Select your **X2 CONTROLLER.**

3. Click **CONTROLLER SETTINGS** in the left menu tab.

4. Click the **CONNECT TO Wi-Fi** button.

5. At the controller, press the **BLACK** button on the WAND twice for the Wi-Fi setup. WAND's Wi-Fi status LED will blink **AMBER •** twice per second. **SAP** will appear on the controller LCD.

☐

6. Select the **Wi-Fi Direct (SAP Mode)** button.

7. Click the **Continue when the amber LED • is blinking twice a button.**

8. You should be seeing the **CHOOSE YOUR X2** screen. Select the **HUNTERX2XXX** Wi-Fi network name matching the last **3 CHARACTERS** of your WAND serial number.

9. Disable **MOBILE DATA** [2] only on your device when prompted.

☐   ☐

10. Return to the Hydrawise app and click the **RESCAN** button.

☐

11. A list of nearby Wi-Fi networks will appear. Select your wireless network and click the **CONNECT** button.

☐

12. Enter your Wi-Fi password and click the **CONNECT** button.

If your password is longer than 19 characters, you will need to update your WAND firmware before continuing See article [3].

□

13. Enable **[MOBILE DATA](#) [2]** on your smartphone when prompted. WAND will connect to your Wi-Fi network.

□ □

14. Once connected, the **WAND LED** will turn solid green •, the word **ONLINE** with a solid Wi-Fi icon will appear on the controller LCD. The Hydrawise app will show a **CONNECTION SUCCESSFUL** message.

□

15. Click the **CONTINUE** button to continue set irrigation schedules.

□

NOTE: In some cases, establishing a connection may be an issue, so you may have to re-start using this process.

IMPORTANT: The WAND's Wi-Fi pairing process will automatically stop after 10 minutes if no action is taken. Press the WAND button twice to restart the Wi-Fi Direct Setup process or press the WAND button until "SAP" appears on the controller LCD.
